

BERING X-Cold

ø100 & 133 tube light for very low temperature industrial environments

BERING X-Cold

ø100 & 133 tube light for very low temperature industrial environments

Since an efficient seal and temperature variations rarely make good bedfellows, Sammode has designed the BERING, dedicated to deep-freeze tunnels and cold rooms at temperatures down to -40°C . Its casing, equipped with reinforced silicone seals, locked in place by axial clamping, remains perfectly hermetic even in the case of extreme temperature changes or high-pressure cleaning. Its quick-disconnect connector, insensitive to frost and to thermal shocks, prevents any penetration of humidity thanks to a base with resin contacts.

BERING X-Cold

ø100 & 133 tube light for very low temperature industrial environments

Disconnectable quick-lock plug version

CRI80, 4000K

Ø (mm)	Flux (lm)	L (mm)	Designation	Code	Watt

	11100	1850	BER133 26H840 POME PS3 SA BRS	16605022	85

Models fitted with reinforced electronics for repeated switching on and off at very low temperatures, and specific silicone seals for impermeability even across a wide temperature range.

Options

Cable entry	Fixing straps	Color temperature

BERING X-Cold

ø100 & 133 tube light for very low temperature industrial environments

Specification

Photometry

Diameter 100

Diameter 133

Technical characteristics	
Light source	High-efficiency removable LED module (CRI>80, 3 SDCM) 70 000 h L80/B10 even at min. operating temperature Photobiological hazard : None (RG0)
Optics	Special satin-finish housing for LED Light mixing chamber
Lighting comfort	UGR ≤ 25
Heat management	Aluminium heat sink
Control gear	High reliability constant current output driver, mechanically and thermally reinforced. Resistance to overload: 320 V AC, 48 h Supports voltage spikes < 4 kV Electronic compatible with central source
Supply voltage	220-240V ±10% 0/50/60Hz
Electrical class	Class I
Operating temperature	-40°C to +35°C
Easy intallation and maintenance	
Connection	With disconnectable plug Ø 8 to 10 mm cable (3 × 1,5 mm ²)
Mounting	Attachment with 2 bolt-fitted stainless steel straps with variable center distance and 360° orientation
LED engine maintenance	Easily removable LED modules and driver Opening by releasing the 2 closing screws, removing the end cap and extracting the gear tray
Materials	
Housing	Special polycarbonate housing protected from UV, solvents, hydrocarbons and cleaning agents by a coextrusion of PMMA
End caps and fixing straps	304L stainless steel
Gaskets	Silicone
Method of construction	Housing in one piece with high mechanical and chemical resistance Long-lasting imperviousness by axial screw fitting
Standards	
Waterproofness	IP66, IP68, IP69K
Resistance to IK shocks	IK10
Fire resistance	650°C
Vibration resistance	Meets the severe application requirements of standard EN 60598-1 (tested according to IEC 60068-2-6)
