

Quadratube W1

Wall light with a micro-perforated louvre - Serie S

Quadratube W1

Wall light with a micro-perforated louvre - Serie S

The W1 compact wall light is part of the Quadratube by Wilmotte collection and combines a functional unit with a designer look. Its long, sleek and elegant silhouette can illuminate the headboard in a hotel room or busy areas in office buildings. Thanks to its micro-perforated sheet metal louvre, lacquered black steel structure and transparent housing, this model offers remarkable visual comfort and quality. Cosy mellow lighting from a wall light with a resolutely contemporary design.
